WELCOME TO HARRY'S

Harry's is named in honour of Adam's late grandfather Haralambos AKA Harry, who was a passionate lover of beef and growing his own produce. Here at Harry's our mantra is BEEF, BOOZE & BANTER which pretty much sums us up

WHY WE CREATED HARRY'S FOR YOU

Harry's was created to show you and your friends that eating high quality steak can be a casual and fun experience whilst not breaking the bank.

Harry and his team continue to obsessively search far and wide in the quest to find you THE BEST possible cuts of beef for THE BEST possible prices.

As a team, we have set ourselves the challenge to change the Australian perception that dining at a quality steak restaurant has to be for a special occasion.

We challenge you to find better!

BEEF

Harry's is all about our take on a famous French dish called "steak frites" (frites is simply fries in French). We proudly showcase 4 cuts of premium beef as our hero dishes. All our cuts of beef are served with house baked bread, whipped butter, salad and UNLIMITED frites.

BOOZE

Harry's booze list is heavily focused on wines and beer. We do serve spirits and cocktails and we make them freakin' well too, but wine and beer is our thing.

Our wine list will consist of around 30 wines focused more on reds for obvious reasons. We primarily use smaller Australian & New Zealand producers who predominantly practice sustainable, organic, biodynamic & natural winemaking methods.

We have 10 taps which will consist of 8 beers, one cider & Harry's house cocktail.

BANTER

Remember that eating out is all about good banter among friends and family over a great meal!
